GLOBALNEX CEILING SUSPENSION SYSTEMS

Globalnex Rapid-Hook System

- Interchangeable only - perfect to allow easy
- Superior quality - manufactured in accordance with ISO 9001 quality standards
- Built in cranks for connection. Early disconnection with no tools
- Built with 4000 series steel allows for standard or enhanced load
- Manufactured from corrosion resistant, hot-dip galvanized steel
- Heavy gage steel with double web main runners designed for maximum strength and durability

Model	Length	Height	Span	Load Capacity	Material
RDH-100	10'	1 1/2"	10'	100 lbs	4000 Series Steel
RDH-150	15'	1 1/2"	15'	150 lbs	4000 Series Steel
RDH-200	20'	1 1/2"	20'	200 lbs	4000 Series Steel
RDH-250	25'	1 1/2"	25'	250 lbs	4000 Series Steel
RDH-300	30'	1 1/2"	30'	300 lbs	4000 Series Steel
RDH-350	35'	1 1/2"	35'	350 lbs	4000 Series Steel
RDH-400	40'	1 1/2"	40'	400 lbs	4000 Series Steel
RDH-450	45'	1 1/2"	45'	450 lbs	4000 Series Steel
RDH-500	50'	1 1/2"	50'	500 lbs	4000 Series Steel

Slate
Mineral Fiber Acoustical Ceiling Panels

Contemporary ceiling panels provide the finished appearance of fine white stone. The unique surface is naturally enhanced by indirect lighting or natural daylight.

Rapid-Hook Ceiling Attenuation Class Rating (CACR) ensures an effective barrier to sound transmission between rooms.

- Lightweight & durable for direct plenum access. Each panel weighs less than 10 lbs.
- Non-combustible, Class "0" Flame Spread Rating

Environmentally Friendly Manufactured with 100% Recycled Fiberglass Reinforcement.

Standardized and available for an open-web support system.

Mineral Fiber Ceiling Panels:

- Many surface designs similar or equal to USA brands
- Many sag-resistant patterns that perform up to 99% RH
- Class "A" flame spread rating
- All materials supplied in standard USA sizes for both new and existing 15/16" or 9/16" grid products
- Fine textures available with triple step edges
- Large selection of 12" x 12" kerfed tiles (Travertine, ND Fissured, Micro Pin-Perforated tiles for hospital replacement, etc.)
- Huge selection of new, fresh, and totally unique patterns and designs
- Millions of SF installed in the USA since 2002!

15/16" & 9/16" Grid Suspension Systems:

- Available in hot-dipped galvanized steel or full aluminum profiles
- All produced from thick, heavy gauge metal
- Stab system T-Bar with popular end clip design
- T-Bar also available in gold, chrome, and copper metallic finish
- Hook system T-Bar with butt edge
- Slotted systems for high-end architectural projects

- Huge variety of wall angle options (reveal, flex, ultra-wide, etc.)
- Millions of LF installed in the USA since 2002!

Metal Ceiling Systems:

- Multiple perforated design patterns with cloth acoustical core
- Various colors and finishes
- Available in square, reveal, and concealed clip systems
- Open Cell systems also available

Wood Ceiling Systems:

- Melamine and real wood veneer surface finishes
- New "Acoustic Plus" gypsum core technology
- Economical MDF core also available

Access Flooring Products:

- Very unique integrated surface finishes (marble, granite, genuine wood parquet, glass, etc.)
- Also choose from a variety of economical HPL finishes
- Available cores in both economy MDF and also acoustical calcium sulphate
